### Adenna® & ProWorks® Gloves

Our comprehensive line of Adenna® and ProWorks® disposable gloves, including nitrile, latex and vinyl, is part of our complete bundle of products for personal care and facility maintenance. The company's best-in-class solution, nitrile gloves, is available in a rainbow of colors and offers a far greater range of weights than many national brands, offering extra protection – more than the typical 3.5-mil disposable glove – and better value. We also offer a broad assortment of Coated, Cut Resistant, Mechanic, Work Gloves and PPE.

### TaskBrand® Wipers

Wipe out dirt, germs, and dust. We offers one of the broadest lines of non-woven wiping solutions in the industry, from general purpose to application specific. Our unique range of wiper solutions affords customers the lowest cost-in-use for any all-purpose wiper application. Substrates include Scrim/TAD (E series – Economy); DRC (V series – Value); Hydrospun (P series – Premium); and A series – Advanced Performance. Put-ups include flat, quarter-fold/poly bag, interfold and TwinTote™ dispenser box (single wipe dispensing), center-pull roll, jumbo roll, GrabBox™ and CounterCase™ configurations. Ask about our private label program!

### Rags and Towels

Hundreds of wiping applications can be made easier with our complete line of reusable wiping cloths. Choose new or reclaimed knits and t-shirt or sweatshirt material, terry, microfiber, fleece and more for any application from heavy-duty to delicate cleaning, dusting, polishing, and even grease cleaning in the shop. MicroWorks® microfiber towels are low lint, hypoallergenic and non abrasive. The specialty fibers scoop, lift and trap dirt without scratching. MicroWorks® microfiber towels come in multiple sizes, weights and colors.

### MicroWorks® Microfiber Towels & Floor Care

Microfibers and dirt have a “magnetic” relationship. Millions of tiny fibers carry a positive charge that attracts and traps negatively charged dirt rather than simply pushing it around. Our complete line of MicroWorks microfiber cleaning products includes wiping cloths, wet or dry mops, dust mops, and accessories. And wait, there's more: our exclusive, revolutionary SPHERGO® flat surface cleaning system featuring MicroWorks microfiber pads. Attach the pads to a revolutionary ball-and-socket handle and repetitive motion disorders all but disappear.

## TaskBrand® Sorbents

We can help eliminate one of the leading causes of workplace injuries—slips, trips, and falls caused by liquid or oily spills. We offers a complete inventory of solutions: Universal: pads, rolls, socks, and pillows for both water- and oil-based fluids; Oil-Only: pads, rolls, socks, booms, and pillows; Hazmat: for cleanup of unknown toxic, flammable, corrosive, and chemical spills. TaskBrand® sorbents come in a variety of substrates, colors and sizes for indoor and outdoor use. Also ask about our Rugs and Mats, including the new TaskBrand® SureGrip™ absorbent adhesive mats.

## Odor Control & Air Care

Controlling odors is extremely critical in any cleaning program – the first impression of a restroom and facility is made with your nose. The most effective odor control program is comprised of specific products that work together to achieve one goal, Odor Elimination. Our unique approach combines distinctive chemical formulations for effectively controlling odors throughout your facility.

## Facility & Carpet Care

Known for our system approach to facility maintenance care, we provide cleaning solutions for healthcare/dental, automotive/aerospace, industrial, tattoo, corrections, veterinary, food processing and other markets. From dumpsters to carpet to greasy surfaces to leather interiors we have a wide variety of products for every aspect of your. Routine carpet maintenance and cleaning is the key to a healthy environment and improved air quality for patrons. Look no further for environmentally friendly and effective carpet cleaning products. Our comprehensive program includes Certified™ professional grade encapsulating cleaners, traditional extraction cleaners, dry cleaning, spotters and more.

## Cleanroom / Critical Environment Products

Cleanroom and critical environments require products with much higher standards than most other industries. We manufacture and offer PPE that are suitable for all pharmaceutical, scientific, and clinical laboratory applications, including products compliant with strict regulatory guidelines as required by USP 797 and USP 800. Other supplies we manufacture include: dry wipes, pre-sat wipes, mats, IPA & disinfectants, spill kits, chemo mats and much more.

## Toilet Seat Covers

Studies prove that people overwhelmingly prefer to minimize physical contact with items in the restroom—especially around the toilet. We have always offered the most complete line of toilet seat covers and dispensers.

## Personal Care Products

We believe there should be universal access to menstrual hygiene products in every public restroom. We see these hygiene solutions to be as necessary as soap, toilet paper, and paper towels. Finally, ours is the most complete menstrual hygiene system, including product dispensing and safe, scented, and hygienic disposal. Our leading branded products, Maxithins® and Tampax®, can be vended in our dual or single dispensers.
